PROJECTS

Airbnb Clone | *Node.js, Express.js, MongoDB, EJS, Cloudinary, MapTiler*

[Live](#) | [GitHub](#)

- Engineered a full-stack property rental platform following MVC architecture with secure login, session management and owner-based authorization.
- Implemented listings, reviews, wishlist and booking workflows with complete CRUD functionality and database relationships.
- Integrated Cloudinary image uploads, MapTiler location maps, Joi validation and responsive Bootstrap UI for a production-style user experience.

Product Browser API | *Node.js, Express.js, PostgreSQL*

[Live](#) | [GitHub](#)

- Built scalable REST APIs with cursor-based pagination, category filtering and structured JSON responses.
- Designed and seeded a PostgreSQL database with 200,000+ product records and optimized queries for large datasets.
- Structured API responses with limit, cursor and category parameters to support efficient product browsing.

Developer Portfolio | *Next.js, React.js, Tailwind CSS*

[Live](#) | [GitHub](#)

- Developed and deployed a responsive portfolio showcasing projects, skills, education and contact details with recruiter-friendly navigation.
- Built a clean project showcase with live demo, GitHub and resume links to support internship and fresher applications.

Spotify Clone | *HTML, CSS, JavaScript*

[Live](#) | [GitHub](#)

- Created a responsive music player with playlist support, play/pause, next/previous, shuffle, repeat, seek bar, volume control and dynamic song updates.
- Implemented DOM-based interactions and state updates using vanilla JavaScript for a smooth frontend experience.
